*Maths Week in Action*

Maths is Mighty at Hauxton Primary School. Today marks the end of a wonderful week of activities in school (thank you Mrs Cooke for leading this). Children embraced Maths Week with excitement and enthusiasm as they participated in a variety of interactive and hands on activities. This included using the outside learning environment to explore Maths trails, working on Measures, Shape and Space with a focus on estimating. Thank you for joining in at home with our Family Estimation Challenge. Take a look at our website to see more.

Since we returned from the summer break, we have been busy updating information for you on our website class pages. Please do visit these to find recent photographs of the children's learning in school and how to support your child at home. We seek to put as much information as possible on our website. Most general information that parents/carers are looking for can be readily found on our website.

Don't forget to **book a school lunch on Thursday 3<sup>rd</sup> October** which is our Autumn School Census day. The money the school receives from the government to pay for funded schools meals is based on an average of the number of meals taken on the census days in October and January. **It would really help us financially if your child were to have a school meal on this day. If you are unsure whether you are eligible for funded meals at any age and would like to check, use this [speedy checking tool](#).** School can receive additional funding for every eligible child to further support their learning.

## The Big Biology Day

## Important Announcements

A polite reminder to be courteous to our neighbours. We often receive several complaints about inconsiderate parking, parking that blocks residents driveways and parking on a resident's drive.
