

Oak class Summer 1

In Oak class this half term we will be learning about lots of different things! You can help your child at home by discussing what they have been learning, looking at books and videos related to the learning, and practising key skills.

Maths

As we are on our final term of the year, we will be revisiting key objectives and concepts within Maths. This will include: Algebra, co-ordinates, translation, reflection, rotation, scaling, time, angles and order of operations. We will also give a special focus to multi-step problem solving! Please make sure your child is confident with their times tables.

English

In Guided Reading and as a class text, we will look at Percy Jackson and the Lightning Thief.

As Ancient Greece is our topic, we will start the half term focusing on persuasive writing with a final piece persuading others to visit a city in Greece. To enable us to be successful at this, we will practice using different phrases, persuasive devices and varying our sentence structures, especially those for effect. After this, we will return to narrative writing, using our learning on Ancient Greece to support us.

Science

Once again, we will be using our investigative skills to explore properties of materials. We will work scientifically to make predictions, carry out experiments fairly and analyse the data. whilst exploring electrical conductivity, temperature, absorbency, reversible and irreversible change and chromatography.

History

Ancient Greece- let's go back in time to explore how the different areas of Greece were governed, and compare the two city-states of Athens and Sparta.. We will use primary and secondary sources to find out about the daily life of the ancient Greeks, before exploring Greek mythology and the impact of some of the great philosophers of the time. Throughout the topic, we will reflect on how the ancient Greek civilisation still influences modern life today.

P.E

This half term we will be focusing on Decathlon on Wednesdays and Striking and fielding on a Thursdays.

Production Time

It is Summer term and we know what that means - it is production time!
During this half term, we will begin rehearsals for our end of year production. What will it be?
